Engine Winterization – Includes completely flushing the engines raw water cooling system with Freeze-Ban, cleaning of the strainer, Checking of the engines antifreeze to the proper freeze protection and topping off. All belts, and hoses are checked and the engine is blanketed with a coat of CRC 6-56 corrosion inhibitor. Any necessary repairs needed will be noted. Fogging oil and fuel additives available.

Fresh Water System Winterization - Includes flushing the water system with biodegradable antifreeze. Covering one each of Water tank, Galley faucet, Head faucet, Shower mixer and Shower sump. The water heater is drained and bypassed. Includes all wet bars, shower sumps, additional sinks and windshield washer.

Flush Anti-Freeze - Closed anti-freeze system should be flushed every three to five years to allow proper freeze proofing and cooling. This is tested in the engine winterization section and if the level is not adequate it should be replaced with new anti-freeze. Price does not include materials.

Stern Drive Servicing – includes changing the fluids, Removing the drive, Inspecting and Adjusting the u-joints and gimbal bearing, removing the prop and lube and reinstallation.

Shrink Wrap Service – Shrink wrapping service will be done by Bay Bridge Marina on premises, in water service may be subcontracted. Pricing includes one zipper door. Canvas must be removed before wrapping.
